NAME – UI Developer

********@gmail.com │ +91 xxxxxxxxx

Summary

I have over 7+ years experience in the areas of web development using HTML, CSS, JavaScript and jQuery. I have been involved in my current role with Sportkix for the last 1 year.

I have good communication skills with ability to articulate and explain complex technical concepts. I am passionate to positively push the web development and user experience to next level, and hone my existing skills and competency to have the extra edge over the others.

I enjoy working with people who are professional in their approach. I am proud of my teamwork and communication skills, as I believe these are key to delivering a successful end product. My continual development means I look forward to meeting people from all aspects and learning along the way.

- Elegantly implement page designs in standards-compliant dynamic XHTML and CSS.
- Proven expertise with: HTML, CSS, JavaScript, DOM, XML, AJAX.
- Basic knowledge of 508 compliance.
- Experience in making PDFs accessible.
- Have an eye for design and a heart for developing.
- Aesthetic appreciation for pixel level design requirements, Turn UX wireframes, prototypes, and pixel mockups into high-quality application interfaces.
- Build bullet-proof, standards-compliant HTML/CSS-based templates, with required JS interactions coded and tested.
- Experience working in active code bases.
